EDUCATION

Nepal Engineering College
Bachelor of Engineering
Major in Computer Science

Changunarayan, Bhaktapur
Expected Feb 2026

Relevant Coursework: Computer Networks, AWT (Advanced Web Technology), AI (Artificial Intelligence), Operating Systems, Database Management System

UNIVERSITY PROJECTS

GOOD NOTES (2023)

HTML, CSS, NODE JS, EJS, MONGODB

An educational web portal designed to facilitate the downloading of university lecture notes and study materials. The system utilizes a JavaScript-based backend and MongoDB to efficiently manage data storage, earning formal approval from the faculty for its implementation.

MERCH NEPAL (2024)

JAVASCRIPT, HTML, TAILWIND CSS, REACT, EXPRESSJS, MONGODB

A fully functional e-commerce platform engineered to facilitate seamless digital transactions and customer interaction. The application integrates the MERN stack and Stripe to power secure payments, real-time chat, and dynamic review filtering, earning faculty validation for its robust functionality.

SKILLS

Languages: Java, C++, Python, C#, PHP, Prolog, Bash, C, SQL (Basic)

Web Development: React, JavaScript, NodeJS, HTML & CSS

Technology: Git, GitHub, MongoDB
